

Hello again Brighton Primary School community!

**Day 3**  
**Wednesday**  
**21<sup>st</sup> September**

**Picnic  
In LA4**

Wednesday we celebrated our ever growing CDE community with a picnic/celebration in our SLA over in Learning Area 4. We had originally planned to head across Highet Avenue to the park... but who said it was spring time? Thank goodness for contingency plans!

As well as our 17 students we invited our future CDE students and families. We had so much fun making stronger community connections, seeing the new faces was an absolute joy, we played, shared food and laughs.

We hope to continue to grow as a CDE community here at Brighton and celebrations like this week and Wednesday help remind us how important it is to form strong community bonds. I hope we can all agree that strong community bonds = a positive connection to self-identity and to the education provided here at BPS (which is what we're aiming for here within the CDE).

Were you able to find out what the Auslan sign is for your favourite colour? Today see if your child can teach you some numbers, can they teach you your birthday?
